

The figure is a technical drawing of a mechanical device, likely a control unit or a small machine. It consists of two main views: a top view and a side view.

Top View: The top view shows a rectangular device with a central circular feature. The overall width is 107 mm, and the overall height is 60 mm. The central circular feature has a diameter of 100 mm. There are four small circular features (possibly screws or mounting points) arranged in a 2x2 grid on the left side of the device. The distance from the left edge to the center of these four features is 53 mm.

Side View: The side view shows the profile of the device. The overall height is 50 mm. The base is 37 mm wide. The top section is 35 mm wide. The side view also shows the central circular feature and the four small circular features.

Title Block: The title block is located at the bottom right of the drawing. It contains the following information:

- PROJECT NAME: 운도 조절기
- TITLE: 운도 조절기
- PROJECT NO.:
